Teachability

The CAD/CAM Program that's easy to use, easy to learn, easy to teach.

CAD/CAMLink
Guaranteed integration by one company!

D&M CAD/CAMLink The Power You Need:
- Geometric Modeling
- Detail Drafting
- Entity Management and Entity Verification

Easy-To-Use Display Manipulation
- Cursor snapping and grid display
- Realign or modify a grid or snap position
- Zoom or pan any design feature

3-D Data Base
- Transformation of geometry with internal CAD abilities including mirror, rotate, scale, off-set and other commands
- Create points, lines and arcs
- Geometric modification of any part designed in CAD
- Produce fillets, chamfer and letters

Including Today's Most Advanced Features
- Complex contouring
- Pocketing with complex island avoidance
- Drilling and multiple cycles
- Toolpaths defined by chaining or windowing
- Graphic editing of toolpath
- And More

AND THEY'RE AMERICAN
